*The Cumberland YMCA has purchased this former garage on Church Street for use as parking.*

AMHERST – The Cumberland YMCA has purchased a garage located directly in front of its Church Street property and expects to have the building demolished sometime later next week.

The property will be paved and used for parking for the YMCA.

Two weeks ago YMCA officials announced plans for a \$2-million project that will see the child-care centre expanded with the footprint of the southwest corner of the building to expand to 7,000 square-feet. Because the front part of the building is being expanded, the YMCA would be losing 10-15 parking spots.

Now that it has purchased the former garage property from Tantramar Chev-Olds it will gain those spots back and add a few more.
